Heparin Sodium Injection, USP Product Changes

Dear Valued Customer,

 Fresenius Kabi Canada would like to advise that the following changes have been made to the following formats of our **Heparin Sodium Injection, USP**:

- **Vial:** There has been changes to the vial size, cap colour, and vial material.
- **Labelling:** The tray and vial labels have been updated to include the new Fresenius Kabi Canada brand design and Plain Language Labelling (PLL) requirements.
- **Product code:** The new product codes are outlined in the table below.

 A more detailed look at the current versus “new” labelling can be found in the table below. There has been no change to the formulation and the products are **not free** from preservatives.

DIN	Product Description	Current Product Code	NEW Product Code	Current UPC Codes	NEW UPC Codes	NEW MDP Code	NEW McKesson Code	Availability Date
02264315	Heparin Sodium Injection, USP 1,000 USP units/mL MD Vial 30 mL	C504730	C504036	Vial: 629336507306 Tray: 629336000340	Vial: 629336004867 Tray: 629336004874	976295	168717	Jan. 7, 2022
02264307	Heparin Sodium Injection, USP 10,000 USP units/mL MD Vial 1 mL	C504801	C504213	Vial: 629336508013 Tray: 629336000357	Vial: 629336004881 Tray: 629336004898	976313	168719	Feb. 10, 2022

 Please note, during this transition period the current product code may still be in distribution until inventory is depleted, at which point the current product codes will be **discontinued**.
