## Requests for Educational Grants and Charitable Contributions

Fresenius Kabi Canada Ltd. (“**Fresenius Kabi**”) will consider supporting educational grant or charitable contribution requests, received from eligible organizations (not individuals), with the goal of supporting specific educational activities intended to improve the management of disease, patient safety or population health, or of benefitting society and advancing wellness in our local communities.

### Criteria

All requests for educational grants or charitable contributions should:

- Be submitted in writing on the requesting organization’s letterhead
- Be signed by a representative of the requesting organization
- Describe the goals of the organization and the specific purpose of the request
- Describe the need for the proposed activity and the audience that will benefit
- Set out the nature of, and/or amount of, the support requested
- Include a proposed budget or cost break-down for the proposed activity
- Include the date and location of the activity
- Be submitted at least 60 days in advance of the proposed activity

While Fresenius Kabi is committed to supporting high quality programs and initiatives that will advance the healthcare landscape in Canada and improve outcomes for patients, not all requests can or will be approved. Common reasons for declining a request are:

- The proposal is not aligned with Fresenius’ current educational or charitable objectives for the funding year
- Failure to comply with the criteria noted above
- Incomplete request or insufficiently described program

### How to Apply

If your Canadian organization is interested in submitting a request for an educational grant or charitable contribution, please submit a request in writing to: [grants.request.canada@fresenius-kabi.com](mailto:grants.request.canada@fresenius-kabi.com)
